

Schedule A – Additional Terms and Condition

(Forming part of and attached to the Ontario Standard Lease)

Agreement Overview: This Schedule is designed to ensure a safe, well-maintained, and respectful living environment. These terms supplement the Ontario Standard Lease and shall be interpreted in accordance with the *Residential Tenancies Act (RTA), 2006*. Should any term conflict with the RTA, the Act shall prevail.

1. CARE & PRESERVATION OF THE PREMISES

- **Standard of Cleanliness:** The Tenant agrees to maintain the unit to a standard of "ordinary cleanliness" (RTA Sec. 33), including the timely removal of waste.
- **Surface & Wall Care:** To preserve the home's aesthetic, the Tenant agrees to use felt pads on furniture and avoid abrasive cleaners. Small picture hooks are permitted; however, mounting televisions, shelving, or making structural alterations requires prior written consent to ensure wall integrity and proper restoration.
- **Climate & Airflow:** To ensure a healthy indoor environment, the Tenant shall use bathroom and kitchen exhaust fans to

manage humidity. Air registers and returns must remain unobstructed to ensure the efficiency of the HVAC system.

2. SYSTEMS, UTILITIES & REPORTING

- **Plumbing Integrity:** To prevent service disruptions and water damage, the Tenant agrees not to dispose of non-flushable items (e.g., wipes, grease, hygiene products) down the drains.
- **Proactive Maintenance:** The Tenant agrees to notify the Landlord within 24 hours of noticing leaks, drips, or moisture. Failure to report a known issue that results in exacerbated damage or excessive utility costs may be deemed negligence.
- **Appliance Care:** Appliances shall be used for their intended purposes. This includes regular cleaning of dryer lint traps and avoiding the overloading of laundry machines.

3. SAFETY, OCCUPANCY & ENJOYMENT

- **Smoke-Free/Cannabis Policy:** This is a 100% smoke-free and vape-free property (including balconies). To prevent mold and fire hazards, the indoor cultivation of cannabis is prohibited.
- **Residential Use Only:** The unit is for private residential use only. Short-term rentals (e.g., Airbnb) or commercial operations with public foot traffic are strictly prohibited to maintain building security and insurance compliance.
- **Occupancy & Guests:** The unit shall be occupied only by those named on the lease. While guests are welcome, the

Tenant is responsible for their conduct and ensures they respect the "reasonable enjoyment" of neighbors.

4. EXTERIOR & SEASONAL RESPONSIBILITIES

- **Exterior Maintenance:** For detached properties, the Landlord and Tenant shall maintain a separate service agreement regarding snow removal and lawn care to ensure compliance with municipal safety bylaws and RTA standards.
- **Drainage & Debris:** The Tenant agrees to keep private entrances, exterior drains, and window wells free of debris (leaves, snow) to ensure proper drainage and fire safety.
- **Tidy Spaces:** Patios and balconies shall be kept tidy and used only for their intended purpose. Hazardous or flammable materials may not be stored on the property.

5. SECURITY & PROFESSIONAL STANDARDS

- **Insurance:** The Tenant shall maintain a Tenant Insurance policy with a minimum of **\$1,000,000 in liability coverage**. Proof of insurance is required prior to move-in and upon renewal.
- **Lock Security:** Locks may not be changed or added without prior written consent (RTA Sec. 35). All keys/fobs must be returned at the end of the tenancy.
- **Extended Absence:** If the unit will be vacant for more than 7 consecutive days, the Tenant shall notify the Landlord to ensure the property remains secure and adequately heated.

6. COMMUNICATION & VACATING

- **Maintenance Requests:** Routine requests should be submitted via [Your Portal/Email]. Formal legal notices will be served in accordance with LTB rules.
- **Move-Out Condition:** At the end of the tenancy, the Tenant agrees to return the unit in a "reasonably clean" condition, remove all personal property, and cooperate with reasonable showings as per RTA guidelines.
